

JUDGE HERRICK FOR GOVERNOR OF NEW YORK

His Name Went Through Without Contest.

Ex-Senator Hill Moves to Restore Harmony in the Empire State—Convention Today.

Saratoga, N. Y., Sept. 21.—Judge D. Cady Herrick was nominated for Governor by the New York State Democracy today and David B. Hill made the nominating speech. While on its face it looks like triumph for Hill, it is really a triumph for Tamm. Herrick is a justice of the New York Supreme court and hails from Albany county.

Francis Harrison was nominated for lieutenant governor. The state platform says in brief that the paramount issue in New York is Odellism, whose personal integrity, the platform says, rests under widespread suspicion.

At 2 o'clock this afternoon Judge Herrick was nominated according to schedule, the secretary of the convention casting the ballot for the whole convention. At 2:30 Francis Burton Harrison was nominated for lieutenant governor.

Herrick and Hill have been political enemies for years and Hill's move to restore harmony is looked upon as one of the most extraordinary and dramatic in the history of state politics. Attorney General Cuneen has withdrawn as a candidate for associate judge of the court of appeals and the Cullen-Werner slate is expected to go through. Mr. Cuneen has been tendered a re-nomination for attorney general.

There was no end of excitement in the corridors of the Grand Union hotel this morning and there was all sorts of talk current as to the outcome of the day's convention.

In accepting the gavel from temporary chairman Hornblower, Permanent Chairman D. C. Lee expressed to him the wish that he had continued to preside over the convention. He expressed his appreciation of the honor bestowed. He eulogized the delegates for their abnegation of self and loyalty to the party as evinced by the conference held.

"Not in twenty years," said Mr. Lee, "has a similar convention found it unnecessary to appoint a committee on contested seats. We are Democrats because we believe that however much our opponents' governmental plans may be consistent with and helpful to a monarchy, they are directly opposed to the fundamental idea of a republic and if permitted to become more firmly established or develop undirected it will inevitably rob us of our rights."

Outlook Encouraging.
Parkersburg, W. Va., Sept. 21.—A meeting of the Democratic county chairmen of the Fourth Congressional District was held here yesterday. The most flattering outlook was reported. The indications are that the Fourth District will give a good majority for the Democratic state ticket.

COMPANION MISSING

And the Police are Puzzled to Know if Hoert Was Murdered.

Sandusky, O., Sept. 21.—The body of Lewis Hoert, a freeman at the cement works, was found wedged in some piles on the long Lake Shore railroad trestle at Bay Bridge yesterday afternoon. The police believe he was either murdered or killed by a train. J. J. McCauley, Hoert's companion, cannot be found, but his friends think his body is in the bay.

Mob Followed Him.

Menominee, Mich., Sept. 21.—Henry Younke has been arrested on a statutory charge by a girl of 14. Younke was followed by an angry mob of farmers with shotguns. The sheriff rode nine miles on horseback and rescued Younke, whom several shots missed as he lodged among the trees in the woods.

Honeymoon Was Short.

Paducah, Ky., Sept. 21.—D. M. Flournoy, one of the most prominent brokers and society men in Paducah, has been granted a divorce from Laura Flournoy, daughter of Evangelist Sam Jones. The couple met here last summer at an evangelistic meeting.

Another Coast Storm.

Norfolk, Va., Sept. 21.—What appears to be another severe coast storm is brewing today off the Virginia and North Carolina seaboard, and many vessels are rapidly putting in at Hampton Roads for safe anchorage.

TAGGART Returns to New York and is Enthusiastic Over Outlook.

New York, Sept. 21.—Thomas Taggart, chairman of the National Democratic committee, arrived in New York from the west after a week's absence. He said: "I have had a most enjoyable time and not only have worked but have had the satisfaction to receive the most positive assurance of victory throughout the middle west. The Democrats are working hard, harder in fact than they have worked in years, and nothing but victory can be seen. Indiana will go Democratic and I am assured that Wisconsin will fall into line and of course New York will go for Parker and Davis."

IN HAYSTACK

Police Found Zanesville Boys Who Had Been Missing—Lads Were Camping Out.

Zanesville, O., Sept. 21.—Frank Shingledecker and Clarence Boyd, embryo Jesse Jameses, have been missing from their homes in this city for the past several days, and the police officials received word that they were "camped out" on the Schultz farm a few miles down the river. Chief Artter and Lieutenant Petet went there and traced the boys to a large straw stack. Lieutenant Petet burrowed into the stack and was rewarded by finding both boys in their "den." They had excavated the stack until they had made a room about seven feet square and high enough to stand in. They were fortified with an old shotgun, which, it is alleged, they had stolen from a workshop at Taylorsville. Both boys are being held pending investigation.

SECEDERS

Object to Assumption of New Dignities by John Alexander Dowie, Split in Zion.

Chicago, Sept. 21.—Dissatisfied with John Alexander Dowie's assumption of new dignities, thirty-five persons left Zion City for their former homes in Washington and Oregon. The seceders departed, saying that they objected to the robes worn by Dowie quite as much as to the title he had taken upon himself. The schism recalls that which followed the announcement by Dowie that he was Elijah. Doctor Dowie was not in Zion City at the time of the departure, having gone with his family to his private home in Michigan.

DEAF AND DUMB

For Four Months, Gordon Suddenly Recovered His Lost Faculties After Awful Agony.

Elkhart, Ind., Sept. 21.—After being deaf and dumb five months William Gordon's hearing and speech suddenly returned at the culmination of three hours of agony.

Gordon fell from a tree in Celina, O., April 19, and was hurt so badly it was thought for two weeks he could not live. Four days after the accident he became deaf and dumb.

He was feeling unusually bad yesterday and at 8 o'clock last night was seized with severe pains. They gradually intensified, until his wife and two children were rejoiced to hear him speak of them. The pains suddenly ceased and he found that he could talk and hear as well as ever. Today his physical strength was greatly improved and he rode his bicycle. His physician thinks a blood clot pressed against the optical and auditory nerves, and that the pressure was suddenly removed.

DOE GUM YIP

Married a Countryman After Her Arrest, Hence Cannot be Deported.

Portland, Ore., Sept. 21.—According to the Telegram, a decision rendered by United States Commissioner Staden in the case of Doe Gum Yip, a Chinese woman held for deportation, will throw open the doors of immigration to Celestial women without number so long as the woman marries a regularly admitted Chinese after arrival. The woman was charged with being illegally within the precincts of the United States. After her arrest, she married Wong To Fook, according to the laws of the United States, and this, according to Commissioner Staden's decision, entitles her to a residence in this country.

Montreal, Quebec, Sept. 21.—The building of the Canada Hardware company, one of the largest wholesale and liquor houses in Canada, burned early today. The loss is estimated at \$750,000, partly insured.

JAPS ADVANCE EIGHT DIVISIONS NOW MARCHING

Big Battle is Imminent at Mukden.

Ready to Attack Port Arthur—Russian War Office Expresses Doubt.

London, Sept. 21.—The Tokyo correspondent of the Reuters Telegram company today says it is predicted in Tokyo that the reduction of Port Arthur will be accomplished within a fortnight.

St. Petersburg, Sept. 21.—General Kuropatkin, under date of yesterday, reports that the flanking attempt by the Japanese on the Russian left, was unsuccessful. The situation at Mukden itself, he says, is unchanged. On Monday the enemy was observed moving to the east of Daling Pass. Later he twice attacked the Russian positions at the Pass, while some companies attempted outflanking movements against the Russian's left. The attacks were repulsed and the flanking forces were checked by the cavalry and machine guns.

Mukden, Sept. 21.—A battle is imminent. The Japanese are advancing with eight and possibly nine divisions.

St. Petersburg, Sept. 21.—Interest is again concentrated upon Port Arthur owing to the receipt from foreign sources of news that a general storming of the fortifications there has begun. A few belated telegrams from General Stoessel, the commander at Port Arthur, published Tuesday afternoon, recording the repulse of the Japanese and continued attacks, strengthen confidence in the ability of the defenders to hold out despite the furious onslaughts being made on them. The last attacks by the Japanese took place the night of Sept. 14, and was directed against redoubt No. 8, which protects the water supply of the city. The redoubt is about two miles beyond the line of permanent forts, and the attack upon this shows that the Japanese were not then within striking distance of the main fortress. Reports from Shanghai that some of the defenses had fallen into the hands of the Japanese as a result of a general assault on Sept. 20 are not confirmed from Russian sources.

The telegrams brought to Chefoo by Prince Radziwill have not yet reached the war office. It is understood that these dispatches contain details of the landing of strong Japanese reinforcements at Dainy, which would tend to confirm the belief that it is the intention of the Japanese to storm the fortress and that the warships will probably take part in this attack. In this event, Admiral Warren's division will doubtless go out and engage the Japanese fleet.

All Russia is anxiously awaiting news from the beleaguered garrison. Public feeling has been aroused to a high tension by the dreadful picture given by Prince Radziwill of the sufferings of the Russian army there. The sensational announcement that General Kuroki has crossed the Hun river unopposed and that the whole Japanese army is advancing upon Mukden is overshadowed by anxiety for Port Arthur. Moreover, the announcement relative to Kuroki does not receive complete credence here as being in direct contradiction of official news issued by the general staff. General Kuropatkin announced only two days ago that there was not a single Japanese east of Bentshapuzto. How, it is asked, could General Kuroki, with 12,000 men, slip past General Rennenkampf's Cossacks and cross the Hun river near the Fushan coal mines 30 miles east of Mukden. Fushan is situated on the Taizte river. The road is carefully watched by General Kuropatkin's outposts between Mukden and Sintsintin. A strong guard has been placed at the Fushan mines, which General Kuropatkin will not give up without a struggle, as the loss of the mines would involve the cutting off of the coal supply for the whole of the Manchurian railway. Nevertheless, it is considered more than doubtful if General Kuropatkin will make a decisive stand south of Tie pass.

Russia's Position on Contraband.
St. Petersburg, Sept. 21.—Russia's position on the matter of contraband will be officially promulgated in the form of decisions of the admiralty court in the cases of the Calchas, Arabia and Atlanton when they come up on appeal. Russia's position has been authoritatively stated to be: Russia does not desire to interfere with the United States' legitimate commerce with Japan, but she has the right to and must protect herself as far as possible against shipments which may aid the enemy in prosecuting the war.

Six Men Killed.

Houston, Tex., Sept. 21.—Lightning struck a tank at the Texas oil refinery on the Texas coast today, killing six workmen and firing the tank.

TRAIN On Illinois Central Was Wrecked Purposely This Morning.

Springfield, Ill., Sept. 21.—A deliberate and successful attempt at wrecking occurred at 3:35 o'clock this morning on the Illinois Central at Barclay 15 miles north of this city. The diamond spread running 45 miles an hour, was thrown into the top works of the Barclay coal and mining company's mine, all but the rear sleeper leaving the rails. Fireman George Concaunon of Decatur, was killed, and Engineer Walter Hayes of Clinton, was badly injured. None of the passengers was badly hurt.

Officials of the company here say the switch light was out, the switch lock battered and broken and the switch itself turned and set in a way to plunge the train into the mine buildings.

CANTEEN

Is Favored by General Corbin and Small Arms Practice is Encouraged.

Washington, Sept. 21.—General Corbin favors the re-establishment of the canteen, and recommends the enlistment of colored men in the artillery or their transfer to that corps from the colored cavalry and infantry, and strongly advocates the increase of the coast and artillery by at least one-half and the raising of the pay of the non-commissioned officers and of such privates in the corps as have shown themselves qualified as expert artillerymen. He favors the encouragement in every possible way of small-arms practice both in the regular establishment and the national guard, and favors the detail of the best army experts in rifle practice for instruction of target associations outside the service.

VETERANS

Respond Once More to the Bugle Notes of Assembly—Oration by a Private.

Indianapolis, Ind., Sept. 21.—To the shrill bugle notes of "Assembly," which forty years ago was stirring music upon the battlefield, the gray-haired veterans of the civil war, on whose memory are graven awful pictures of battle and carnage and in whose ears linger the roll of musketry and the roar of cannon, assembled in the Claypool Auditorium for the public exercises which marked the closing of the first day's session of the 35th annual reunion of the Society of the Army of the Cumberland.

For the first time in the history of the society, a private, Orlando A. Somers of Kokomo, Ind., delivered the annual oration. Mr. Somers reviewed the history of the army of the Cumberland from 1861, when it was mobilized, without uniforms or accoutrements, until the close of the war. When he reached the climax of his oration, speaking of the battle of Missionary Ridge at which time the whole battle front of the Cumberland army, two miles in length, contrary and in violation of the orders of the commanding officer, charged up the ridge to a height of 600 feet and swept the Confederates from their entrenchments, the applause was deafening and for many minutes the eyes of the old warriors were dimmed with tears.

KING IS CROWNED

Belgrade, Sept. 21.—King Peter was crowned here in the cathedral today. There was little enthusiasm but no unpleasant incidents. After the coronation, King Peter renounced his throne, the procession reformed and the party returned to the palace. During the return trip King Peter wore his crown, which weighs 30 pounds, and it was with difficulty that he kept his head erect. Upon his arrival at the palace the king held a great reception. Tonight Belgrade and all the towns throughout Serbia will be illuminated.

Parents Duck Young Elopers.

Sterling, Ill., Sept. 21.—Thrift, elopement, return a ducking for bride and bridegroom, and then reputation. Such is the history of the romance of Ira Mitchell and Mamie Stanley, 17 and 16 years old respectively, who have been in camp here. A gilded wagon figured in their dream of love, and to buy it the boy took \$300 of his father's money. The couple fled to southern Illinois, where they were married. Returning, there was a violent storm. The young people were taken to the Green River and ducked, their parents assisting. Then the bride and bridegroom were made to agree henceforth not to call each other husband and wife.

CALMLY SISTERS LAY DOWN ON RAILWAY TRACK

Bodies Cut to Pieces by a Train.

Wrapped Themselves in Spread to Die Together—Tragedy at Bucyrus, Ohio.

Bucyrus, O., Sept. 21.—Two aged single women, Mary and Lizzie Kehrner, who lived alone on a little farm five miles south of Bucyrus, committed suicide by throwing themselves in front of a passenger train on the Ohio Central.

The women left the house and walked down the track to a curve. Each carried a bed spread, and, wrapping themselves in these, they lay down upon the track. Their lifeless and mutilated remains were found by the section men on going to work this morning. They had become tired of living and had several times intimated that they wished they were dead.

The women were 58 and 56 years old respectively. A few years ago Mary contracted a disease which had been pronounced incurable. Since then she has brooded over her illness and her melancholy was shared by her sister. Their lives had been happy and useful up to that time. The question of committing suicide was often discussed with neighbors, who discouraged such an end to life. The elder sister, however, remained steadfast in her determination to kill herself, and it is believed that Lizzie soon began to agree with her that such a proceeding was justifiable. It was the custom of the women to retire as early as 7 p. m., and the neighbors watched for the daily extinguishing of the candle which lighted the little farm house. No one suspected that when the house was darkened last night that it was other than the usual retirement of the two women. But instead of going to bed they wrapped bed spreads about themselves and hurried to the track in the darkness of early evening, where they waited, it is believed, for nearly three hours for a train to come along and crush out their lives. The two women laid their heads together on the track, on the fireman's side of the engine, evidently with the hope of evading being seen by the engineer. Their mangled bodies were scattered along the track for hundreds of yards.

NOVEL WAY

St. Paul Boys Had of Trying to Rob Mail Boxes—Were Caught by the Police.

St. Paul, Minn., Sept. 21.—An attempt to rob a mail box in Minneapolis street yesterday afternoon was frustrated by the appearance of a patrolman, who frightened three boys away. They left their paraphernalia behind. The equipment with which the boys expected to procure valuable letters, which they thought were in the box, consisted of a piece of thread and a large grasshopper.

The boys were gathered about the mail box, when the officer suddenly came around the corner. There was a great scramble as the three lads disappeared in as many directions, and the officer did not know what was going on until he noticed the thread hanging out of the mail box. He pulled and a letter appeared at the slot, but just as he reached for it, the missive dropped back into the box and the thread with a large grasshopper tied to the end of it came off. Further investigation showed that the boys had dropped the grasshopper into the mail box, and that the insect would catch hold of a letter with his powerful claws and hang on while he was drawn to the opening. Had it not been that the officer appeared when he did the lads would have got some of the letters.

WHITE MAN

Killed a Negro in Georgia and a Race War is Feared—Citizens are Armed.

Macon, Ga., Sept. 21.—Specials from Hawkinsville say: Early this morning messages received by the hardware stores to rush by express ammunition and arms to Pitts, Wilcox county, in anticipation of an expected outbreak among the negroes who live there in large numbers. Cecil Johnson, a white man, shot and killed a negro Saturday, and since that time the negroes have been holding secret meetings, 250 strong, many quitting their work to attend. Prominent citizens from Pitts were here preparing for the matter. The situation is serious, but the white men of that section are determined to be masters of the situation.

Pitts' citizens are armed and ready for any emergency. Hawkinsville, Pineview and Cordele have offered their services.

REVOLVER

Was Pointed at His Baby When the Sheriff Arrested Kastner—Poison Found on Him.

Indianapolis, Ind., Sept. 21.—Arthur H. Kastner, a young man living west of Indianapolis, was arrested by Deputy Sheriff George Better as he was pointing a revolver at his baby held in his arms. When looked up here a bottle of chloroform, a bottle of strychnine and a bottle of milk were found in his pockets. There was brown sediment in the milk, believed to be poison. The milk has been given to a chemist to analyze.

Kastner's wife recently sued him for divorce. He asked the court to compel the mother to permit him to visit the child, but was refused. The court finally issued an order enjoining the mother from taking the child out of the county while the divorce suit was pending.

Kastner went with the Deputy to serve the order. While the deputy was reading it he grabbed the baby and fled. The officer pursued and stopped him. Kastner drew a revolver on the deputy and then turned it on the baby, but before he could fire it was knocked from his hands. Kastner is but 23 and his wife 16.

In The Field of Sport : : : KID PURTELL

Secured Last Run of the American Association at Columbus—His Fielding a Feature.

"Kid" Purtell who played with the Idlewild baseball team, where he got his reputation, scored the last run of the American Association season in Columbus Tuesday in a double header with Indianapolis. Purtell made a hit and scored on Kihm's long double to left field. The "Kid's" fielding was a feature of both games.

"Fate" Cromley, who is well known in Newark and Granville as one of the best athletes ever sent from Kenyon, pitched the second game for Indianapolis, which Columbus won 7 to 4. The Senators, under Clymer's leadership, have finished the season in second place, the highest position they have occupied since 1897, when the team under Tom Loftis finished second in the Western League race of that year.

DROWNED
In Prison by Falling Asleep With His Head Lying on the Drain Pipe, Stopping Flow.

Chicago, Sept. 21.—With his head submerged in a drain trough in his cell Homer Augustus, a prisoner at the Woodlawn Police Station, was found dead. Augustus lay down to sleep on the floor and his head had stopped the flow of water through the outlet into the drain pipe, resulting in his death by drowning.

Augustus was put into the cell last night suffering from intoxication. He asked Sergeant O'Brien to turn the gas lower so that he might sleep. When O'Brien visited the cells at 7 o'clock the man was lying face downward, his head covered with water, which runs through the drain trough in the cell.

Sure Relief for Women.

No. 18 Central Ave.
HOT SPRINGS, ARK., April 30, 1908.

Eighteen months ago I was so completely run down
that my body ached from head to foot. My back seemed
to break in two and I suffered intense pain in the lower
abdomen. I could not afford to lay off and take a rest,
and no medicine helped me any.
A friend told me how much Wine of Cardui built her
up and advised me by all means to take it. The day I took
the first dose the recovery of my health began. It was
nearly three months before I was entirely cured, but
I look on Wine of Cardui as the
most blessed medicine that a
woman could possibly take when
she feels sick and tired of life.

Anna Nelson
ORATOR, WEDNESDAY CHAUTAUQU CLUB.

WINE OF CARDUI

Mrs. Nelson describes the condition of thousands of women. That con-
dition comes by slow stages. Usually the important function of menstruation
is at first slightly irregular. Then comes the painful periods. Bearing-down
pains and ovarian inflammation follow. Finally the nervous system gives way
and the whole system has become affected and the pains rack the body from
head to foot.

Wine of Cardui is a menstrual regulator of established reputation. No
woman who takes it suffers as Mrs. Nelson suffered. It gives speedy and com-
plete relief from the torturing menstrual agonies which are making so
many women invalids today. Do not let yourself come to the pitiable
condition Mrs. Nelson describes.

Secure a bottle of Wine of Cardui from your druggist today and
begin treatment immediately.

well known young man of Newark,

were married Wednesday morning.
The ceremony was performed in the
vestry of the St. Francis de Sales
church at 8:30 o'clock, and was per-
formed by the Rev. Father B. M. O-
Boylan, in the presence of quite a
number of friends of the contracting
parties. The bride for a number of
years has been employed as saleslady
in the Mohlenpach queensware store
of this city, and is well and favorably
known in Newark, as is also her hus-
band. The happy couple left soon
after the ceremony for their future
home in Spokane, taking with them
the best wishes of all their friends.

Extractor.
A newly invented article for twist-
ing and taking out the stone of the

This little article is intended for
use in preparing the cling stone peach
for canning. With the aid of this de-
vice, the peach, after it is cut, can be
easily twisted in halves, and the stone
taken out, leaving it entirely from
any of the peach which usually clings
to the stone when cut out with a
knife.
It is a great time and labor saver,
and an indispensable article in the
household at this season of the year.

REAL ESTATE
DEAL BEING NEGOTIATED NEAR
GRANVILLE.

Proposed to Establish an Interurban
Town—An Outline of the
Proposition.

A large and important real estate
deal is now being quietly negotiated
by a number of prominent business
men, whose names are for the present
withheld, which, if consummated, and
from every indication it will be, will
be one of the most gigantic enterpris-
es of the kind ever established in Cen-
tral Ohio.

It is proposed by these gentlemen to
establish an interurban town, two
miles east of Granville, and four miles
from Newark, on the old Granville
road, near Crook's corner. It is pro-
posed by the syndicate which has the
movement in charge, to purchase a
strip of land 200 feet wide on each
side of the Granville road and paral-
lel with it. The lots will run back to
the new roads to be opened, and each
lot will be 50 feet wide and 200 feet
deep, minus the width of the new
road. Handsome cement walks and
curbing will be laid on the roads,
shade trees planted and the entire ad-
dition will be made as up-to-date as
possible. Large arches, supplied with
scores of electric lights, will be erect-
ed at the ends of the streets, and are
lights generously placed throughout
the addition will make it as light as
day. The Newark and Granville
Street railway which runs through the
center of the proposed new addition,
will make it easily accessible at both
points.

INTERURBAN
WANTS A SWITCH PUT IN AT
ZANESVILLE.

While the People of That City Are
Desirous of Having an Amuse-
ment Park.

Zanesville, Sept. 21.—As a result of
the action of the Board of Commerce
it is probable that the question of
granting a switching franchise on
South Sixth street will be revived in
council.

The Board of Commerce meeting
was attended by General Manager J.
R. Harrigan of the Columbus, Newark
& Zanesville railway, and President F.
A. Durban and General Manager Gibbs
of the Zanesville Railway, Light and
Power company. These three gentle-
men were present upon invitation of
the board which desired to discuss
with them two propositions, the one
of the Sixth street switch and the
other the matter of an amusement
park for Zanesville.

As to the matter of an amusement
park for this city all were agreed that
such an institution would prove a pro-
fitable investment for each of the three
interests represented, and each indi-
cated a determination to push the
matter along.

The Board of Commerce has selected
a large committee to go before the
city council with a request that switch-
ing facilities be granted the interur-
ban railroad on Sixth street or else-
where in the central part of the city.
It is stated that a switch about 120
feet long would meet the requirements
of the company.

The interurban company urges that
it is desired to run two express cars
into the city but that this service can-
not be installed until a place is se-
cured for the loading and unloading
of goods.

DOUKHOBORS
The Russian Religious Fanatics Are
Again in Search of the
Messiah.

Rosthern, N. W. T., Sept. 21.—Douk-
hobors, the Russian religious fanatics,
have created excitement among the
Canada settlers by once more leaving
their agricultural pursuits and start-
ing on a pilgrimage in search of the
Messiah.

On hearing of the great overland
ride being made by Lord Minto from
Battledore to Saskatoon, accompanied
by a mounted guard of police and
much military pomp, they decided
that this man who was inspiring such
respect from the Canadians must be
the Messiah for whom they had been
waiting, and immediately they started
on one of their pilgrimages. Several
of them were promptly arrested by po-
lice here and housed in a vacant build-
ing.

Gala Day in San Francisco.
San Francisco, Sept. 21.—The meet-
ing of the Sovereign Grand Lodge has
attracted to this city many thousands
of Odd Fellows and the number is
rapidly being augmented by arrivals
from western and coast points. The
street decorations are lavish and
beautiful and the weather is ideal.
Most of the visitors are devoting their
time to social reunions and sightsee-
ing, there being daily excursions to
many points of interest. The Rebekahs
are doing much in the way of enter-
tainment. In the Mechanics' pavilion
many lodges have their headquarters
and the big building is constantly
thronged.

THE CORN CROP.

Chicago, Sept. 21.—Dispatches from
towns in the principal corn growing
districts indicate that there is not
much danger of damage to crops by
frost. The temperature in nearly all
regions is about normal and as cloudy
conditions prevail, a serious drop is
not anticipated anywhere. A few
points predict killing frosts by morn-
ing, but at most of these places near-
ly all the corn is in, and little is left
except some light vegetables.

Everything is Tariff Taxed.

The price of nearly every article used in the home is higher because of the exorbitant protective tariff that the Republicans are "standing pat" on. Every suit of clothes, every hat, every piece of underwear, every pair of socks, every pair of shoes, every collar and cuff, every tie is dearer because of the tariff; every dress, every piece of linen, silk or cotton, for the household; every article of furniture in the house, every piece of cutlery, glassware, or potteryware in the dining room or kitchen; every piece of carpet or oilcloth in the house; every pound of sugar, rice, soda, starch, soap, borax; nearly every article of food on the table—all of these are made dearer by the tariff and nearly all are made by tariff trusts that put prices as high as possible. Few people realize that they are paying tariff taxes when they are trading at a store. They know, or at least the women, who are the pursers or com-

missaries of most families, know that prices have greatly increased during the last five or six years, and that never before was it so hard to supply the household needs with the money at their disposal. They know that a dollar does not go as far as it used to go, though many do not suspect the cause. If they did there would be but little peace in the ordinary family until the voters stopped voting this annual contribution of \$94 a year to the protected trusts.

The "Prosperity" Argument.

The slogan of the Republican party is prosperity. The claim is set up by them that the country is only prosperous under Republican administration of governmental affairs.

That all dinner pails are not full, however, after eight years of Republican rule, is made evident in a statistical article published recently in the New York World, which shows that New York city's free lodging house has entertained forty-six per cent more unfortunates this year than during a corresponding period of last year. From January 1st to July 31st, 1904, the house has entertained 41,265 derelicts, and fed them, thereby breaking the record of its entire existence extending over a period of more than seven years.

The manager of the institution is quoted by the World as saying: "A majority of our guests are men of middle age, who are able to work; men who want work but can't get it. We have comparatively few old men and only about 5 per cent of those who come here are women."

New York is not alone in the entertainment of an army of unemployed and helpless derelicts. The same conditions apparently exist in all of the congested centers of the country. A special telegram from Pittsburgh, the home of one of the most gigantic trusts, says that "within the past five years under the trust regime, the cost of living for the workmen in the Pittsburgh district has been increased 55 per cent. The price of its food has been increased that much, and his rent almost as much, while the cost of clothing has been raised to an alarming extent."

Yet on these conditions the Republican party is standing pat and telling the country that they mean "prosperity."

A Sobering Thought.

(New York World)

Here is a bit of President Roosevelt's letter of acceptance which deserves the serious consideration of the American people:

"We believe that the progress we have made may be taken as a measure of the progress we shall continue to make if the people again intrust the government of the Nation to our hands. We do not stand still."

No, we do not stand still. If what has been done is the measure of what is to be done hereafter, then the army, which costs three times as much as it did when the Republican party regained power, will cost three times as much after eight more years of Republican rule as it does today. From \$23,129,344 in the fiscal year 1897 and \$76,979,369 in 1905 the army will demand \$210,999,000 in 1913. The cost of the navy which has also tripled, will triple again. Eight Republican years have raised it from \$33,007,234 to \$98,005,140. Eight more years of the same sort will bring it up almost to \$300,000,000.

As we do not stand still, the tariff will be revised again—upward.

The conquest of the Philippines may be followed by the forcible annexation of a slice of China.

The proclamation of a protectorship over the Western Hemisphere may be, and of course will be, since the peerless leader despises words unless they are backed by deeds, succeeded by the actual exercise of the authority so assumed. We shall be landing troops from the Straits of Magellan to the Rio Grande to maintain order and enforce the payment of debts to foreign speculators in risky "securities."

If we could stand still the people might be willing to condone the past. But, as Mr. Roosevelt truthfully observes, we cannot. If we vote for him we do not only endorse what he has already done, but we commission him to go on in the same direction, to an extent measured by the progress he has already made.

Buy a fine building lot from the gentlemen who have done so much to promote Newark's interests. The value of lots in Wells & Miller's Park Addition will double in the next two years.

Disfigured Skin

Wasted muscles and decaying bones. What havoc! Scrofula, let alone, is capable of all that, and more. It is commonly marked by bunches in the neck, inflammations in the eyes, dyspepsia, catarrh, and general debility. It is always radically and permanently cured by

Hood's Sarsaparilla
Which expels all humors, cures all eruptions, and builds up the whole system, whether young or old.
Hood's Pills cure liver ills; the non-detracting and only cathartic to take with Hood's Sarsaparilla.

AMUSEMENTS

KIRK BROWN'S PLAY.

Among the productions that will be given by Kirk Brown and his company during their engagement at the Auditorium commencing tomorrow, are many plays that have never before been given at reduced prices. The list includes "The Man Who Dared," "Cumberland '61," "Under the Red Robe," as well as an elaborate revival of "Prince Otto."

RIP VAN WINKLE.

Rip Van Winkle, worthless, graceless, lovable old vagabond, with ever ready laugh, with his trouble and the pathos of his perplexity, brings Thomas Jefferson, the son of a famous father, to the Auditorium for one night, Monday, September 26.

The name of Jefferson and Rip Van Winkle are almost synonymous as for nearly half a century one has stood for

the other and the play goes of today are just as much in love with the quaint old vagabond, Rip, as were our mothers and even grandmothers in the past.

That Rip Van Winkle has endured so many years is a guarantee of its worth. Many people are disposed to find fault with the moral tone of it, saying that such a worthless, drunken old tramp as Rip Van Winkle should be held in abhorrence instead of arousing admiration and sympathy, but such practical people forget that they are not seeing a reality, but only a poetical romance, a legend of the Hudson river, and the Catskill mountains. Rip Van Winkle is a character so full of sympathy and childish good humor that we feel more like condoning his bad qualities like a naughty child than judging him with the cold-blooded justice that we are in the habit of meting out to stage characters in our usual criticisms.

Mr. Thomas Jefferson has invested the character with all the humor and pathos that has made his father famous.

THE STAR.

Twinkle, twinkle, little star,
How I wonder what you are,
At the footlights bright and gay,
Having all your own sweet way.

How I wonder if the paint
On your cheeks will ever grow faint;
If your slippers, trim and neat,
Will look flabby on your feet.

How I wonder if that smile,
Which you use men to beguile,
Turns into an ugly sneer
When your patrons are not near.

How I wonder if your gems,
From your crown to fluffy hems,
Are but glass beads, cent apiece,
Borrowed on a broker's lease.

How I wonder if you feel
After all, that life is real;
If you say when you are free:
"Oh! What fools these mortals be!"

Twinkle, twinkle, little star,
While your assets are on par;
Soon you'll find some other orb
All your homage will absorb.

Soon you'll find your sweetest self
Snuggly laid upon the shelf;
Make your hay while eyes are bright,
Twinkle, twinkle, all the night.

—Charles Line.

New York, Sept. 21.—Vice Chancellor Stevenson in Jersey City denied the application of the Delaware, Lackawanna and Western railroad company for an injunction restraining the Hoboken and Manhattan railroad company from condemning a right of way under the yard of the Lackawanna company. The meaning of the decision is that the tunnel company may proceed to build the extension into Hoboken.

ERIE ROAD DISCHARGES THREE HUNDRED MEN.

Fireman Killed, Engineer Hurt—An Inspection Party—Local and General News.

Susquehanna, Pa., Sept. 21.—When the 300 boiler makers and their helpers in the Erie railroad company's extensive locomotive shops here reported for work they were surprised to find the doors of the boiler shops locked and a placard stating that their services were no longer required. No reason is assigned for the action. Two carloads of nonunion men have been sent to work in the shops. They will be housed and fed in the shops. A squad of detectives are picketing the shops. All of the boiler shops on the Erie railroad system will be affected and other union organizations may be drawn into the dispute.

The wreck was caused by the failure of Engineer Williams to stop at Superior Junction on account of a hard rainstorm which prevented him from seeing the signals.

YOUR HAT

May Be a Stylish One, But It Makes Trouble.

A man usually buys a hat that's "in style," but the modern hat for men has lots to answer for.

Baldheads are growing more numerous every day. Hats make excellent breeding places for the parasitic germs which sap the life from the roots of the hair.

When your hair begins to fall out and your scalp is full of dandruff it is a sure sign that these countless germs are busy at work.

There is but one way to overcome the trouble and kill the germs—that way is to apply Newbro's Herpicide to the scalp—it will kill the germs and healthy hair is sure to result.

Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich.

Staked Life and Lost.

Sedalia, Mo., Sept. 21.—Charles E. Bliss, alias Barlow, aged 26, a painter from Peru, Ind., where his father is a Seventh Day Adventist preacher, committed suicide by swallowing carbolic acid. At the coroner's inquest a woman testified that an hour before the suicide she and Bliss played a game of cards, the stake being his life against hers, and Bliss lost.

Victim of Confidence Men.

South Bend, Ind., Sept. 21.—In a clever confidence game, in which four men, a game of cards and counterfeit money were involved, Henry Crofoot, a farmer 70 years old, living near this city was swindled out of \$5,000. One of the strangers, giving his name as Edward Clark and claiming Chicago as his home, has been arrested. There is no clew to the remaining trio.

NEW TEACHER

Miss Elinor Murphy of Springfield, O., Accepts a Position in the High School.

At the last meeting of the Newark Board of Education, Superintendent Simkins reported the enrollment of the high school to be 344, and owing to the large number of students another teacher in the high school was necessary. The appointment of an additional teacher was left to Superintendent Simkins and Principal E. P. Childs. Professor Simkins Wednesday morning announced the appointment of Miss Elinor Murphy of Springfield, Ohio.

Miss Murphy, who will arrive here next Monday to begin her new duties in the high school, is a graduate of the Springfield high school and last June received the degree of A. B. at Vassar college. She also attended school for a year at the Western Female Seminary and her college course was taken with teaching in view.

The enrollment of all the Newark schools is now 3,332, and additions are being made daily.

MALARIA IN THE SYSTEM

Holly Springs, Miss., March 24, 1903.

While building railroads in Tennessee some twelve years ago a number of hands contracted fever and various forms of blood and skin diseases. I carried S. S. S. in my commissary and gave it to my hands with most gratifying results. I can recommend S. S. S. as the finest preparation for Malaria, chills and fever, as well as all blood and skin diseases. W. I. McGOWAN.

I suffered greatly from Boils, which would break out on different parts of my body. I saw S. S. S. advertised and after using about three bottles I was cured, and for the last three years have had no trouble whatever. A. W. ZIEBER.
217 Read St., Evansville, Ind.

I began using your S. S. S. probably ten years ago for Malaria and blood troubles, and it proved so good that I have continued ever since using it as a family remedy. It is a pleasure for me to recommend S. S. S. for the benefit of others who are needing a first rate blood purifier, tonic and cure for Malaria.

Boils, abscesses, sores, dark or yellow spots and debility are some of the symptoms of this miserable disease. S. S. S. counteracts and removes from the blood all impurities and builds up the entire system. It is guaranteed a purely vegetable remedy. Write for medical advice or any special information.

An interesting program will be rendered at 1. O. F. hall. Colonel Axline of Columbus will address the meeting and music will be furnished by the Millersport band.

Hebronites are delighted over the success of the lecture course committee in securing the famous "Hawthorne Musical Club" for this season's course. Everybody was anxious for their return. Following are the numbers: The Hawthorne Musical Club, Nov. 11; William W. Brown, Dec. 14; Sam Siegel company, Jan. 23; The Alice Carey company, March 12; 'Bob' Seeds, March 29.

Mr. and Mrs. Marshal Embrey have been entertaining quite a number of Columbus friends for the past week. At one of their good dinners Mrs. Embrey served applesauce which looked lovely and several commented on its fine appearance and helped themselves quite freely of it, and each took a good mouthful to taste. Then calm struck the guests for a second; that applesauce did not want to "go down." Finally someone swallowed and said "salt," and the joke was sprung on Mrs. Embrey who in mistake had seasoned the applesauce with a cup of fine table salt in place of sugar. However Mrs. Embrey thinks the tables were turned on the guests who did not know what to do with the "sauce in the mouth."

The Rev. H. H. Elwinger will preach at the Church of Christ Sunday, September 25; morning service at 10:30; subject "Three Crucifixions"; evening service at 7:30, subject, "Seeking the Pearl of Great Price." There will be no C. E. meeting in the evening, owing to the Union Christian Endeavor rally at the Central Church of Christ at Newark at 5:30 p. m. Those wishing to attend from here will have plenty of time after it closes to arrive here in time for the evening service.

Mrs. Lockwood and daughter and Mrs. Axline of Fremont, O., and Mrs. E. C. Lockwood of Clyde, O. are guests of Rev. and Mrs. H. H. Elwinger.

The little infant child of Mrs. Mark Brown was buried at Fairmount cemetery Monday. The child died Sunday evening.

At a meeting of the school board a vote was taken on closing the schools on Wednesday of "fair week," giving the teachers and pupils a holiday. The result was a tie, so no free tickets will be distributed here.

Denney Dodson has purchased Amos Atwood's driving horse, harness and buggy.

Harry A. House, who is now located at Millersport, as agent for the T. & G. C. railway, was calling on his friends here Sunday.

THE Y. M. C. A.

IMPROVEMENTS MADE IN THE NEWARK BUILDING.

Important Announcements Made by Secretary Ebersole—A New Schedule of Fees.

The "Announcements" is the title of a neat pamphlet issued today by Secretary A. A. Ebersole of the Newark Y. M. C. A. which gives an idea of the work contemplated by the association during the coming winter season.

Extensive improvements have been made during the past summer on the building and equipment.

The walls and woodwork of the second floor have been refinished; a cork carpet has been put on the floors and better lighting provided.

A fine oak magazine rack in the reading room holds all the magazines found in a complete new set of holders. For the Game Room the Board of Trustees has purchased "The Improved Shuffle Board."

The old game room has been transformed into the "Social Room," and will be used for small games and in connection with "The Spa" (the new lunch room), for general social purposes.

In the physical department a new dressing room for business men and seniors has been equipped with lockers and showers complete; the bowling alleys have been repolished and equipped and will be reopened October 1st. Additional apparatus has been added to the gymnasium.

The following important announcement is also made:

At the September meeting of the trustees the cost of membership was changed as follows, the change to take effect October 1:

Full Membership, \$6 per year—This entitles the holder to all the privileges of the Association, including reading room, game room, social room, special rate to Entertainment Course, Educational Classes (upon payment of a small additional fee), gymnasium classes, bowling (eight games for 25 cents), baths and swimming pool.

Limited Membership, \$2 per year—Does not admit to any of the privileges of the physical department. Intended for the educational class students.

Junior Membership, \$4 per year—For boys from 10 to 16 years of age. Reading and game rooms every afternoon from 3 to 6, gymnasium and baths twice a week (See Gymnasium Class Schedule.)

In order that the change may not effect the present membership and to encourage promptness in renewing, the former rate: Full Membership \$5, Limited Membership \$2, Junior Membership \$3, is offered for cash renewals, i. e. renewals paid in full within 30 days after date of expiration. The Locker Rental remains the same, one dollar per year.

New Martinsville, Va., Sept. 21.—Pursued by angry citizens and bloodhounds, burglars escaped into the hills of Monroe county, Ohio, after robbing the safe in the postoffice in Woodsfield of \$1,000. Strike Situation Improving.

Rome, Sept. 21.—The situation here is gradually improving and it is expected that there will be a general resumption of work today. A dispatch from Naples to a news agency here says that a meeting of strikers took place in a conflict with the police and that the latter, by firing in the air, frightened and dispersed the mob.

"THE STODDARD LECTURES." Letter No. 8.

A. R. PITSER.

"Some time ago I purchased a set of 'STODDARD LECTURES' with which myself and family are highly pleased. It is a very interesting and instructive work, and I take pleasure in recommending it."

A. R. PITSER

Note—Over \$6,000,000 worth of the 'STODDARD LECTURES' are already in use in Newark homes and it is impossible, so far as we know, to find a single instance where they are not valued beyond their cost. It is impossible to explain the value of the Stoddard Lectures. Like a pear or peach, their real flavor can only be appreciated by the tasting. So the value of the STODDARD LECTURES

is only fully understood by those who use them and own them. Everybody, in time, uses all of the STODDARD LECTURES. They will never grow old or less in value. Their sale is constantly on the increase, and the new 1904 Edition is one of the most beautiful productions of American skill in its mechanical execution. Every sentence is a literary gem. PLAN FOR STODDARD! WATCH! WAIT! LISTEN! READ! Letter No. 9 tomorrow.

The streets are 50 and 60 feet wide in Wells & Miller's Park Addition, and they are being graded and graveled. 9-20-5c

ASLEEP

For Thirty Days, Lad Awakens in the
Hospital and Calls for Mother,
Who is Dead.Minneapolis, Minn., Sept. 21.—The
sleep of August May, 16 years old, has
ended at St. Barnabas hospital. The
duration of his slumber was 30 days
and 15 hours. The little fellow was
lying on his back, his bright eyes glit-
tering with intelligence, smiling at the
sunlight, and wondering what had
happened.On the night of Saturday, August 20,
the cyclone which swept over the twin
cities demolished the May home at
Waconia. The father, mother and a
baby sister of the boy were killed out-
right. August sustained a fracture of
the skull.

Particles of bone were driven into

the brain. Doctors, using saws, knives
and other instruments, cleaned the
brain of bone splinters. But the boy
did not regain consciousness. Shortly
before noon Tuesday the boy was dis-
covered sitting up in bed rubbing his
eyes and calling "Mother, Mother."
The nurses tried to talk to him, but
found he could speak only German.A German nurse was called and the
doctors would not allow her to talk of
the cyclone as its mention would un-
doubtedly cause the boy to ask for
his father and mother.As soon as the boy is strong enough
to hear it, he will be told that he is an
orphan.

in the case ran out of the store, bit the
speaker, and dispersed the crowd. The
owner of the dog was arrested. The

MURDER

Confessed by "J. Max," an Ohio Man.
Son of Murdered Man is Serving
Sentence.Topeka, Kas., Sept. 21.—County At-
torney Hungate has received a postcard
from West Union, O., declaring
that John Collins, a college student, is
innocently serving a life imprisonment
for the murder of his father, J. S.
Collins. The murder occurred in To-
peka four years ago. With ortho-
graphical corrections the card reads:"Sept. 16, 1904—I must confess to a
terrible deed which I did and an in-
nocent man is serving a sentence for
it. I did the killing of old man Collins.
This son is an innocent man. I have
not many days to live and I have re-
pentance. The card was signed J. Max
Young Collins, a college youth with
expensive tastes, was convicted on
circumstantial evidence of murdering
his father, a prominent insurance man,
to get control of the estate. The Col-

finished and attractive in appearance,

remedies failed to do."

cause to rejoice that I found such a wonderful
Medicine as Drake's Palmetto Wine."

Pittsburg, Pa., Sept. 21.—Dr. Adolph Abramovitz, assistant to Dr. Otto C. Gaub, at the Allegheny General Hospital, will leave next week for Manchuria. The Japanese ambassador at Washington has appointed him a physician in the Red Cross Society. Dr. Abramovitz, while working at the University Hospital in Philadelphia last May, received word from the German consul that a rich uncle had died in Germany and left him and his sister \$150,000 each. Dr. Abramovitz, while a surgeon in the French army, quarreled with Captain Charles Bourd, was challenged, fought a duel, and fatally wounded the captain. The doctor escaped to the United States, was arrested on board the Lucania. As he had been born in Metz, the German consul secured his release.

SON DIED

As He Was About to Shoot a Squirrel for His Dying Father's Dinner.

Findlay, Sept. 21.—Just as he was about to pull the trigger of his shotgun to bring down a squirrel from a nearby tree Oscar Baker fell dead from heart disease.
It was at the request of his aged father, who is lying on his deathbed, that Oscar left the house to get a squirrel for his father's dinner. "I wish you would get me a squirrel for dinner, son. It may be my last on earth," said the old man.
Mr. Baker, Sr., has not been informed of his son's sad death.

SOUR MILK

SAID TO BE NEAR APPROACH TO ELIXIR OF LIFE.

It Contains a Bacillus Which Destroys the Dangerous Microbes, It is Here Alleged.

New York, Sept. 21.—The Herald has the following cablegram from London:

According to an interview with Prof. Eli Metchnikoff of the Pasteur Institute which appears in the October number of the Pall Mall Magazine, the nearest approach to the elixir of life is sour milk. Anyone desiring to attain a ripe old age is recommended by the professor to follow the example of the Bulgarians, noted for their longevity, and consume large quantities of this cheap and easily obtained beverage.

"Sour milk," says M. Metchnikoff, "contains a large bacillus remarkable for the great quantity of lactic acid it is capable of producing. This microbe does not exist normally in the human body, and can be introduced with very great benefit to the health, as it preys upon the hundreds of thousands of microbes which infect the large intestines. It has been noted that there is a great similarity between old age and disease. A study of certain diseases has proved that there is no difference between the mechanism of senile atrophy and that of atrophy caused by a microbe or poison; in fact, on the approach of old age, a veritable battle is waged in the innermost parts of the body. Research is therefore being prosecuted to discover a means of strengthening

the vital elements of the body on one hand and to weaken the aggressive tendency of the harmful microbes on the other."

When this end has been attained the professor hopes to be able to prolong life considerably beyond the present average.

AUDITORIUM TOMORROW.

The Kirk Brown company will open an engagement of three days tomorrow night at the Auditorium.

The Licking County Fair has gained an enviable reputation as being one of the best county fairs in Ohio, and this year's exhibition promises to add new laurels to the credit of the fair.

Thousands Attend Meetings.

Bolton, England, Sept. 21.—The attendance at the mission here of the American Evangelists, Reuben A. Torrey and C. M. Alexander, has been unprecedented. On Saturday and Sunday, 27,000 persons attended the meetings. The mission will continue here another week.

Officers of Women's Auxiliary.

St. Louis, Sept. 21.—At the concluding session of the Women's Auxiliary of the United Spanish War Veterans, the following officers were elected: President, Mrs. Isabel Alexander of Cleveland; vice president, Miss Cornelia Clay of Washington, D. C.

Miners Crushed.

New York, Sept. 21.—Three miners were crushed to death at the old Andover iron mine at Hibernia, N. J., another was so badly injured that he will probably die, and two others were seriously hurt. Nearly twenty tons of rock fell on the men.

FACTIONAL INTERESTS

Have Overshadowed Consideration of the Party in the Sixth District.

Georgetown, O., Sept. 21.—News that the new board of elections from the Sixth district had ordered the name of Hildebrand placed on the ballot under the Republican emblem was received here with manifest anger by the followers of Senator J. B. Foraker, who are behind the Scroggy candidacy. This information, coming upon the heels of the split between the contending clansmen in the county convention yesterday, has widened the breach to such an extent that there is no apparent hope of getting together, and an unheard-of Democratic majority is freely predicted in Brown county for Judge Runyan, the Democratic congressional nominee.

Reports from the other counties show the same condition of affairs to exist throughout the entire district, and the Democrats are actually imbued with confidence of victory at the polls. The fact that there are no harmonizing influences at work in Republican circles heightens this feeling. The lines between the Hildebrand and Scroggy people are so clearly drawn that every Republican voter is a factionist before a Republican—the triumph of his leader is more to him than victory for his party.

This is not an extravagant statement. It is borne out by the cold facts and very apparent conditions that have developed as a result of the split in the Wilmington convention.

BITTER FEUD

IS NOW ON IN THE VILLAGE OF SUNBURY.

Trouble Has Arisen Over the Hours of Closing Saloons and War is Expected.

Johnstown, C., Sept. 21.—The village of Sunbury, a few miles west of town, is in the throes of a feud between the mayor of the town, the town marshal, the editor of the weekly paper and some citizens on the one side, and the president of the council and some other citizens on the other side.

Up to this time the feud has cost the village about \$300 and the expenses are just beginning to pile up. The feud arose some time ago, when Mayor C. C. Brooks insisted upon having an ordinance passed closing the saloons at 8:30 p. m.

At that time D. N. Green, president of the council, was in the hotel business and had a saloon in connection therewith, but he has since retired from the business on his own account. The mayor had conceived a dislike for Green, and is said to have stated that the real purpose of the ordinance was to get him out of business, as the ordinance was designed to shut off pool playing, any games of chance and all slot machines and other accessories to saloons that are popularly reputed to be revenue producers.

Green said he didn't care anything about that, but he insisted that the ordinance the mayor drew up was not legally drawn, in that it did not mention the purpose to close saloons at 8 o'clock in its title, nor did it say anything about closing saloons at all in the title.

Green got that ordinance knocked out and then the mayor came forward with another, in which he set the matter forth in better shape, but failed to name the town in which the ordinance was to become effective. It provided for the closing of the saloons and the shutting off of all games of chance of whatever variety, but it didn't say whether the saloons of Sunbury, Columbus or Newark were to be closed.
